PEXAGON PROMOTES 2ND ANNUAL FLASH FIESTA.

Pexagon Technology urges educators to enter contest to win 500 2GB Lanyard Flash Drives.

Guilford, CT June 28, 2009 – Pexagon Technology, a leading supplier of personalized flash drives in the US, announced their 2nd Annual Flash Fiesta giveaway is now underway. This popular contest is open to all educators and school personnel.

The lucky winner will receive five hundred 2GB Lanyard Flash Drives for their school, a \$10,000 retail value. Launched just in time for celebrating back to school, the Lanyard Flash Drive is an exclusive design manufactured by Pexagon. Geared specifically toward the needs of the education market, this unique drive combines flash drive technology with a neck lanyard and ID badge holder all in one. Complete with a personalized metal tag for student or school name and screen printed school name or logo, the Lanyard Flash Drives are the newest edition to Pexagon's already popular line of flash drives for the education market.

Ashbrook High School, last year's winner, planned to use the drives to enhance student learning and support technology initiatives. Larry Carpenter, a Guidance Counselor at the school, entered the contest at an education trade show. "We hope to issue the majority of the drives to incoming juniors for use with their graduation products" reported Carpenter. "The remaining drives will be used as incentives for students with perfect attendance."

There are multiple ways to enter; either visit Pexagon at their NECC trade show booth (3730) to get your badge scanned, or enter daily online at Pexagon's EDU website (<http://edu.pexagontech.com/>). The winner will be randomly selected on or about October 1st, 2009.

Pexagon is a leading supplier of personalized flash drive into the education market. They support schools and education with fundraising programs, personalized drives, Digital Content-2-Go, as well as an array of other products and services aimed at improving the ways in which students and teachers approach learning in this digital era.
