

Store-It™ Drive

Hi-Speed USB 2.0 Flash Drive

Store-It™ Flash Drives allow you to take your important information and personal data with you wherever you go. Store your digital photos, music files, business documents, and more on these ultra-portable, Hi-Speed USB 2.0 flash drives. Easily access and transfer files between multiple computers. Durable, aluminum casings with free custom laser engraving and security software available.

Personalize

It's all about personalizing your stuff just the way you like it. Start by choosing one of 14 popular colors, pick a capacity that suits your needs, and add 2 lines of personal text to really make your Store-It Flash Drive your very own. Order one or 20, there's no minimum and no set up fee for laser engraving!

Customize

The #1 reason recipients keep give-away items is usefulness... there's no doubt flash drives are useful. Add some customization by engraving your company logo and you've got a home run. Take advantage of our easy to use Custom Laser Engraving service for one-of-a-kind custom drives.

Branding

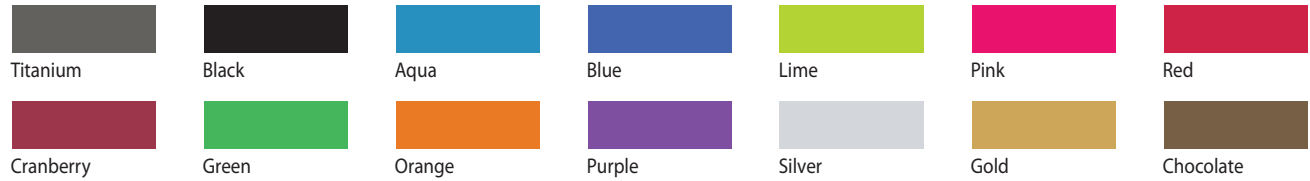

What better way to share your company brand with others than to offer your own version of branded flash drives. Choose from the same 14 colors and numerous capacities to create a product that helps broaden your brand. Add a pre-loaded marketing message to further elaborate on and distribute your message.

Reordering is easy with our Custom Laser Engraving service. Simply complete our online form or (call your sales rep) and upload an Adobe Illustrator file of your logo. Our art department will place your logo on a drive and send you a digital preview for approval. Once approved a CLE number is assigned and can be used each time you order to assure consistency and eliminate the need to resend art work.
