

Store-It™ Drive

Hi-Speed USB Portable Hard Drive

Store-It™ Drive Pro Hi-Speed USB portable hard drives store thousands of digital photos, data files, mp3 files, hours of digital video and more... all in your pocket. Connect to any USB enabled desktop or notebook computer and instantly add gigabytes of ultra-portable, pocket-sized storage. Backup your computer with the push of a button, or simply drag and drop or copy and paste your data files for quick, easy sharing with friends and family.

Each Store-It™ drive comes with award winning EMC Retrospect® backup software and EZ-Touch™ one button backup. Installation is quick and easy, so you'll be up and running your first backup in minutes. Store-It Drive portable hard drives were designed and manufactured with the highest quality components for ultimate portability and data protection. Carry it in your backpack, briefcase, notebook bag, or even your shirt pocket. The Ultra-thin, extremely durable aluminum design makes these drives portable and robust. Take it wherever you go!

NOTE: The EZ-Touch button is currently Windows® compatible only

Benefits:

- Simply press the EZ-Touch backup button to launch the Retrospect Express software. Your backup runs automatically.
- Each Store-It Drive includes Retrospect Express backup software by EMC Insignia, a PC World 2005 world class backup software award winner.
- The Travelstar® hard drive's industry leading technologies enable Store-It's large capacity, compact size, and lightning fast performance.
- Store-It Drives are powered by your computer's USB ports. No AC power adapter is required.
- At only .5" thick they'll fit into almost any shirt pocket. Take your Store-It Drive wherever you go and never worry about storage space or backups again.
- Quickly and easily add up to 160GB of storage to any USB enabled computer. Just plug it in!
- Store-It is Macintosh and PC compatible supporting Windows 98SE, Me, 2000, XP, Vista, and Mac OS 9.x through 10.4 (Tiger).
- Store-It Drives ship with a FAT32 format for ultimate compatibility. Because FAT32 is supported on Microsoft Windows and Mac OS, it's easy to read from and write to your Store-It Drive on almost any computer.
- Connect and disconnect without having to shutdown or restart.
- No driver software is required for Windows Me, 2000, XP, Vista, Mac OS 9 and Mac OS 10.x.
- Retrospect's patented Progressive Backup technology backs up only new and changed data to save time and space.
- Store-It's LED lights when powered on and blinks during data transfers.
- Use Retrospect's advanced features to password protect and encrypt your backups for added security. Retrospect automatically verifies your backup to ensure that your data is safe.
- Retrospect's simple user interface makes it easy to view backup reports, create custom backups, and more.
- Use your Store-It Drive with the EZ-Touch Button and Retrospect, or use it as basic storage. Connect to any USB enabled computer and easily exchange data between computers. Copy and paste or drag and drop. It's that easy!
- Let Retrospect backup your data when you can't. Retrospect Express supports scheduling of unattended backups to ensure that you always have a backup for safe keeping.
