Benefits:

- Store-It portable hard drives are powered by your computer's USB ports. No AC power adapter is required.
- At about half an inch thick they'll fit into almost any shirt pocket. Take your Store-It Drive wherever you go and never worry about storage space again.
- Quickly connect to your computer's USB port and instantly add gigabytes of storage space.
- Store-It is Macintosh and PC compatible, supporting Windows 98SE, Me, 2000, XP, Vista, and Mac OS 9.x through 10.4 (Tiger).
- Store-It Drives ship with a FAT32 format for ultimate compatibility. Because FAT32 is supported on Microsoft Windows and Mac OS, it's easy to read from, and write to your Store-It Drive on almost any computer.
- Connect and disconnect without having to shut down or restart.
- No driver software is required for Windows Me, 2000, XP, Mac OS 9 and Mac OS X.
- Easily exchange data files, photos, video, documents, and more between notebooks, desktops, home, and office computers.
- Currently available in silver, titanium, black, green, blue, and red!
- Find, organize, and edit your photos quickly and easily with Picasa.
- Personalized with up to 3 lines of text to be engraved on the back of the drive, or opt for myDrive Lost-N-Found. With myDrive, each drive is engraved with it's own unique identification number. If lost, myDrive helps your drive find its home. Logo engraving also available.
