PEXAGON INTRODUCES NEW STORE-IT™ DRIVES

New Personal Storage Devices Integrate High-Capacity Hitachi Travelstar® Drives and Retrospect® Express.

GUILFORD, Conn., December 1, 2005-- Pexagon Technology today expanded their Store-It line to include two new form-factors. The USB 2.0 Hi-Speed personal back-up devices are available with either 1.8" or 2.5" Hitachi Travelstar® hard drives inside and include the award winning backup software, Retrospect® Express from EMC Dantz Corporation.

Store-It Hi-Speed USB portable hard drives are capable of storing thousands of digital photos, data files, MP3 files, or hours of digital video all in a shirt-pocket sized device.

The black anodized extruded aluminum alloy enclosure is ultra-thin measuring 1.3 cm thick and 7.8 cm wide, making it truly portable and convenient as well as rugged for mobile applications.

EZ Touch™ One Button Backup offers the most intuitive backup system on the market. Industry leading EMC Dantz provides Retrospect® Express for easy backup, encryption, and password protection of your data. Just press the EZ Touch button to launch the Retrospect backup software and execute your backup. EZ Touch makes backup easy.

The Hitachi Travelstar® hard drive inside is the heart of the device. It provides lightning fast performance while whisper quiet. Available capacities are 20GB 4200 RPM 1.8" and 40GB; 60GB; 80GB and 100GB 2.5" 5400 RPM versions.

Store-It drives are designed for ease of use and are USB 2.0 Hi-Speed plug-and-play compatible with Windows 2000 through XP and Mac OS 9 and OS X.

The suggested retail price of the S20G184U 20GB 1.8" and S60G255U 60GB 2.5" Store-It drives are \$179.99. The S80G255U 2.5" 80GB is \$199.99 and S100G255U 2.5" 100GB is \$269.99.
